Re: LCP Chemicals, Inc. Superfund Site
Linden, Union County, New Jersey

Dear Mr. Sundram:

E. I. du Pont de Nemours and Company ("DuPont") received from the office of Richard L. Caspe a follow up request for additional information related to the LCP Chemicals, Inc. Superfund Site in Linden, New Jersey. The question asked was:

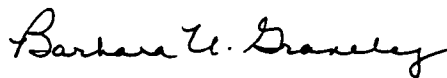

Did your company, at any point during its ownership of the Site, place fill on the property? If the answer is yes, indicate the size(s) and exact location(s) of the area(s) that were filled, how much fill was placed on the property, and from where the fill was obtained. Also, provide any documentation indicating whether the fill was clean or whether any chemical constituents were present in the fill.

After a diligent search and review of all information available to us, we see no evidence that DuPont used the area now referred to as the LCP Chemical site as a repository for fill. To the best of our knowledge and belief, no fill was ever placed on the property during any period of ownership by DuPont.

If the Agency or the other potentially responsible companies have any information that lead them to believe otherwise, DuPont remains willing to review it and, if necessary, reevaluate our response.

The persons who provided information for this answer are the same ones we listed on our response dated March 22. As with our previous responses, this was a team effort, each question and answer was considered by all listed persons. I attach the certification. If you have any questions, I can be reached on 302.774.4201.

Very truly yours,

A handwritten signature in cursive script, reading "Barbara U. Gravely".
